Matt McCormick Facilities Closure Group Program Leader DOE, RFFO

TRANSMITTAL OF THE CLOSEOUT RADIOLOGICAL SURVEY REPORT AND THE NON-RADIOLOGICAL CLOSEOUT REPORT FOR BUILDING 779, ANNEX A - BWM-039-99

Enclosed are four copies of the Closeout Radiological Survey Report and four copies of the Non-Radiological Closeout Report for the Building 779, Annex A Area These reports are for the Rocky Flats Field Office (RFFO) and Colorado Department of Public Health and Environment (CDPHE) review and approval

The reports demonstrate that the Annex A area of Building 779 meets free release criteria for radiological constituents, and that all Contaminants of Concern (COC) within the Annex A area have been identified, removed or remediated to below regulated levels. Therefore, the Annex A area of Building 779 can be released for demolition

We would appreciate notification of your transmittal of the document to CDPHE, and of its subsequent approval, in order that timely demolition of the Annex area can be initiated

If you have any questions, please contact myself on extension 3432 or John Whiting on extension 7592
